FOOD SAFETY & QUALITY POLICY

The company Mikel S.A., while respecting the needs of its customers, produces and offers products with a constant focus on safety and the health of the final consumer. The vision of the business is for the Mikel logo to be a guarantee for every customer, and its products to provide the necessary level of reliability and quality that every business seeks from its suppliers.

Success is not taken for granted. Continuous information and improvement of processes and products are the company's weapons for the production and distribution of competitive and quality products in the market. The business strategy consists of:

Ensuring complete and continuous customer satisfaction.

Compliance with legislative requirements.

Continuous improvement of business operations to ensure a healthy environment for product production, recognizing potential threats that may negatively affect the quality characteristics of the final product.

Development and maintenance of a food safety culture throughout the staff, as well as the senior management.

Ensuring product production in an environment that protects the final products by implementing a product protection program.

Application, review, and continuous improvement of the effectiveness of the Food Safety Management System (FSMS) in accordance with the international standard ISO 22000, as well as keeping it up to date.

The company's management declares its commitment to achieving all the above objectives by implementing processes that include actions and preventive controls to prevent any deviations in the production of its products. These processes confirm:

Assurance to customers that the company's business partners, raw material producers, packaging suppliers, and distributors operate under conditions that ensure the safety of products, excluding any possibility of material or product adulteration.

Faithful application of good hygiene and manufacturing practices (GHP/GMP).

Utilization of raw materials, equipment, and the expertise possessed by the company's personnel for safe and quality products.

Continuous education and teamwork, which are considered essential for creating high-quality products.

Gathering opinions from customers themselves, which are crucial for the company's development.

This commitment of the management ensures that the provided products fully meet the requirements documented in the FSMS Manual.

FOOD SAFETY & QUALITY POLICY

The company's management, at any given time, is able to address issues related to safety, protection, and the quality of products, propose corrective actions, confirm the implementation of corrective actions, and evaluate the results, possessing all the necessary resources to ensure the safety and health of the final products. The primary condition is to cover the training needs of the personnel and to adopt a food safety culture at all levels.

The responsibility for the supervisory monitoring of the Food Safety Management System is undertaken by the Food Safety Team Coordinator.

This food safety and quality policy of final products is applied to all products and services related to the commercial and production activities of the business.

Approval Date: 12/19/2022
